## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 15-30, 40-42, drawn to a method of making an equid by artificial insemination.

Group II, claims 31-39, 43, 52-58, drawn to a method of making an equid having a desired sex.

Group III, claims 44, 59, 69, drawn to an equid.

Group IV, claims 45-58 and 60, drawn to a method of sorting equid sperm by sex characteristics.

Group V, claims 61-67, drawn to a flow cytometer.

Group VI, claim 68, drawn to a sperm sample.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Methods of making equids by artificial insemination

Art Unit: 1632

were known in the art at the time of filing (Brinsko, April 1992, Vet. Clinics of N. America, Equine Practice, Vol. 8, pg 207-211 of record). As such the groups are not related by a single inventive concept.

Claim 52 and claims dependent therefrom are improper claims because they improperly link two separate and materially distinct inventions. The method of producing an equid having a desired sex does not require the sperm cell sorting method and the sperm cell sorting method does not have to be used to produce an equid having a desired sex. The steps required in each method require materially distinct reagents and protocols. The burden required to search both methods together would be undue. As such, claim 52 and claims dependent therefrom are improper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
